MECCANO

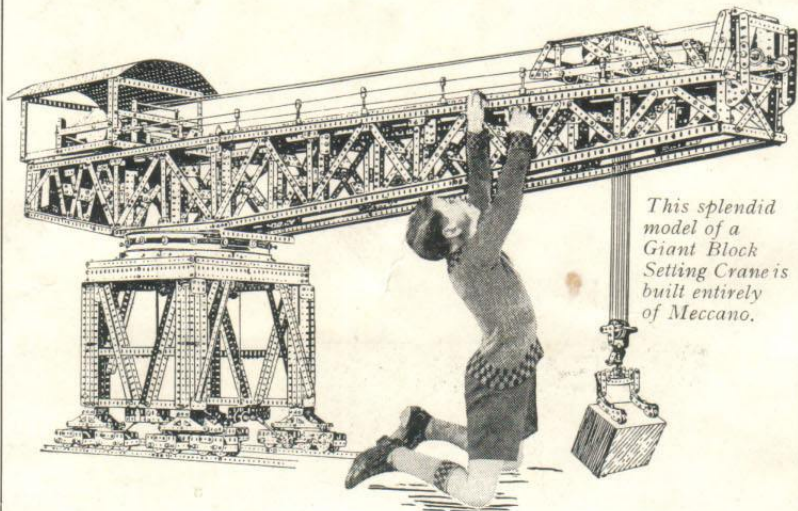

The Toy that made Engineering famous

THERE is no hobby in the world to compare with Meccano model-building and there is no other hobby that is so full of interest for boys. Only Meccano is good enough for the boy who prides himself on knowing something about machinery, because Meccano is the only constructional system that is based on exact engineering principles.

Every boy may be a practical engineer before he grows up. With such a wonderful engineering system as Meccano he can design and build Locomotives, Aeroplanes, Cars, Cranes and hundreds of other models—all correct in every detail. Not only can he build innumerable models but, when they are completed and tuned up, he can operate them in exactly the same manner as the corresponding mechanisms are operated in real life.

This year Meccano is better than ever. Hundreds of new models have been added to the Manuals of Instructions, demonstrating still further the wonderful possibilities of the system. For instance the 1929 00-3 Manual shows how to build 663 models. Never before have we shown so many models in a Meccano Manual.

Meccano makes bigger and better models than any other construction toy—it makes them 100 per cent stronger.

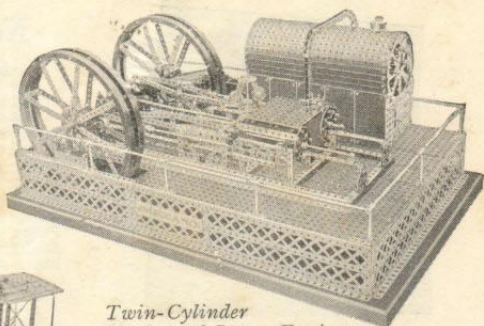

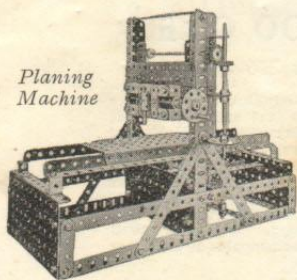

This splendid model of a Giant Block Setting Crane is built entirely of Meccano.

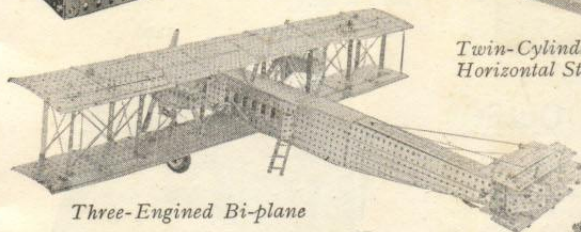

The Meccano boy of to-day will be the Engineer of to-morrow.

MECCANO

No. 00 Outfit

Builds 205 Models

THE No. 00 Outfit is specially adapted to the requirements of very young boys. A special Manual of Instructions is included in the Outfit showing how 205 interesting models may be constructed. This fine range of models includes Trucks, Barrows, Cranes, Potter's Wheel, Pulley Shafting, Windmill, Well Driller, etc., each capable of providing hours of fun.

Price \$1.00

No. 0 Outfit

Builds 344 Models

THE No. 0 Outfit contains a splendid assortment of Meccano Strips, Rods, Wheels, Plates, Nuts, Bolts, etc., and a special Manual of Instructions, giving examples of 344 models that may be built with the Outfit. The models illustrated include Lathes, Horizontal Engine, Pulley Block, Drilling Machine, Cranes, Aeroplane and a variety of others. Everything necessary for commencing to build immediately is included.

Price \$1.50

No. 1 Outfit

Builds 564 Models

THIS Outfit is very popular. It contains a large number and excellent variety of Meccano parts with which a fine range of models may be built. A big fully-illustrated Manual of Instructions is included showing how to build 564 models.

Price \$3.00

No. 1x Outfit

This is the same as No. 1 Outfit excepting that it contains a Meccano Electric Motor No. 1 (6 volt) in addition.

Price \$6.50

NOTE.—Meccano parts may be purchased separately in any quantity. See list on pages 9 to 11.

ENGINEERING PARTS IN MINIATURE

MECCANO

No. 2 Outfit

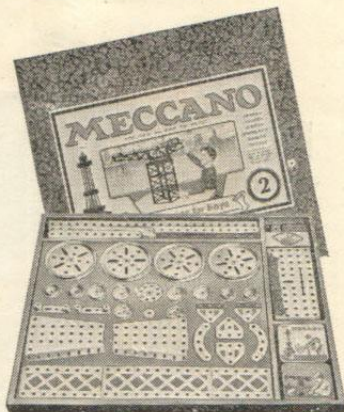

Builds 612 Models

THE fortunate possessor of a No. 2 Outfit is able to build up models of a more advanced and interesting type, including large Cranes, Pit Head Gear, Wagons, Roundabouts, Aeroplane, etc. Full Instructions for building 612 Models are included in the Outfit.

Price \$5.00

No. 2x Outfit

Contains the same number of parts as the No. 2 Outfit and a Meccano Electric Motor No. 1 (6 volts). Price \$8.50

No. 3 Outfit

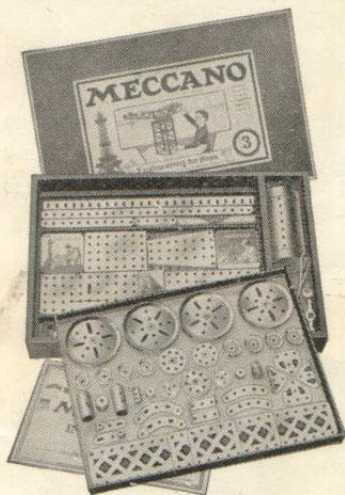

Builds 663 Models

THIS excellent Outfit contains many Meccano parts of an advanced engineering type and the Cranes, Bridges, etc. that it builds are of a better type. A Manual showing how to build 663 models, is included.

Price \$8.00

No. 3x Outfit

This Outfit is the same as No. 3 Outfit excepting that it contains an Electric Motor No. 1 (6 volt) in addition. Price \$11.50

No. 4 Outfit

Builds 720 Models

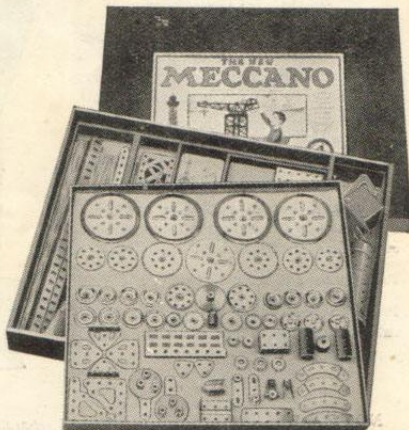

THIS fine Outfit contains a splendid range of Meccano parts with which an excellent variety of models may be built including Cable Railway, Swing Bridge, Inclined Delivery Chute, Wire Rope-making Machine, Bucket Excavator, etc. The Manuals included give examples of 720 models that may be constructed.

Price \$15.00

No. 4x Outfit

Similar to No. 4 but contains a Meccano Electric Motor No. 1 (6 volt) in addition.

Price \$18.50

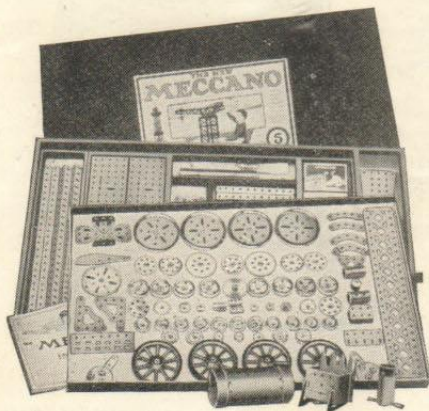

NOTE.—Meccano parts may be purchased separately in any quantity. See list on pages 9 to 11.

RICHLY ENAMELLED IN COLORS

MECCANO

No. 5 Outfit

Builds 764 Models

THE No. 5 Outfit is supplied either in a stout carton or in a handsome enamelled cabinet. The number of Meccano parts contained in each Outfit is the same. Model-building possibilities are very greatly increased with this Outfit and 764 fine examples of real engineering models are illustrated in the Manuals of Instructions that are included.

This Outfit makes a splendid present, especially for a boy who is interested in mechanics.

Price (packed in strong carton) \$20.00

Price (packed in handsome enamelled cabinet, fitted with lock and key) \$28.50

No. 6 Outfit

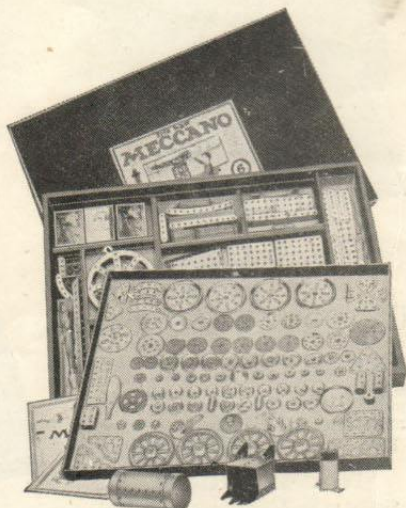

Builds 811 Models

THE No. 6 Outfit is supplied either in a stout carton or in a handsome enamelled cabinet with lock and key. With it may be constructed all the models of the earlier Outfits, and many more. The Manuals of Instructions included with the Outfit show how 811 splendid models may be built.

No greater benefit could be conferred upon any boy than to make him a present of such an Outfit as this.

Price (packed in stout carton) ... \$37.50

Price (packed in handsome enamelled cabinet, fitted with lock and key), \$46.50

NOTE.—Meccano parts may be purchased separately in any quantity. See list on pages 9 to 11.

NEW PARTS—NEW MODELS—MORE FUN

MECCANO

No. 7 Outfit

Builds 846 Models

THIS is a complete and comprehensive Outfit, containing all Meccano parts necessary to build each of the Models in all the Manuals of Instructions, including Stiff Leg Derrick, Meccanograph, Eiffel Tower, Transporter Bridge, Forth Bridge, Hydraulic Crane, Steam Shovel, etc., as well as such special models as the High-Speed Ship-Coaler, the Loom (for real weaving) and the Motor Chassis.

An ideal present for a boy interested in mechanics or electricity.

Price (packed in beautifully enamelled cabinet fitted with lock and key) \$122.50

Accessory Outfits

THESE Outfits connect the main Outfits from No. 00 to No. 7, so that a boy who commences with one of the small Outfits may build up his equipment by easy stages until he is the possessor of a No. 7 Outfit. The following is a complete price list of these Outfits:—

MECCANO

Meccano Motors and Accessories

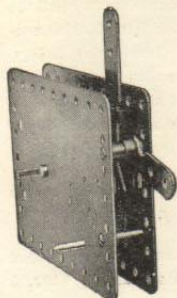

IN order to obtain the fullest possible enjoyment from the Meccano hobby the models should be operated with a Meccano Motor.

All Meccano Motors are strongly made and the utmost care is taken in their manufacture to ensure that they will give every satisfaction to their owners.

MECCANO CLOCKWORK MOTOR

THIS is a splendid piece of mechanism, simple, powerful, reliable and free from all danger. It is fitted with starting, stopping and reversing levers, and all its movements are fully explained in the instructions that accompany it.

Price \$2.50

Clockwork Motor

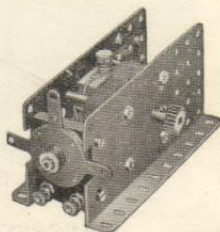

MECCANO ELECTRIC MOTOR No. 1

(6 volt)

THE 6 volt Motor is specially designed to build into Meccano models. It may be run by a 6 volt accumulator or, by employing the Transformer described below, from the main. Fitted with reversing motion, provided with stopping and starting controls, and the gearing is interchangeable.

Price \$4.50

NOTE.—The Electric Motor No. 1 will not run satisfactorily from dry cells.

Meccano Electric Motor No. 1

MECCANO RESISTANCE CONTROLLER

BY employing this variable resistance the speed of the Meccano Electric Motor No. 1 (6 volt) may be regulated as desired. The controller is connected in series with the motor and accumulator, or with the motor and transformer, if a transformer is used as the source of power.

Price \$1.00

Resistance Controller

MECCANO ACCUMULATOR

THIS new and excellent type of accumulator is specially suitable for driving the Meccano Electric Motor No. 1 (6 volts). Price (6 volt, 20 amps.) \$11.00

MECCANO TRANSFORMER

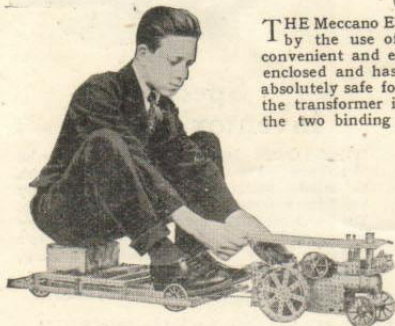

(For 110 Volts, 60 cycles A.C. only)

THE Meccano Electric Motor can be operated direct from house current by the use of the Meccano Transformer. This method is very convenient and eliminates battery cost. The transformer is entirely enclosed and has no moving parts to get out of adjustment. It is absolutely safe for any boy to use. Connect the plug furnished with the transformer into the lamp socket, and the wires from the motor to the two binding posts, then turn on the current. Price \$3.00

THIS MECCANO MODEL

is fitted with the patented Meccano Reversing 6 volt Electric Motor No. 1 and actually pulls a boy weighing 140 lbs. along the ground, with ease.

The reason is that Meccano Parts are strong enough to carry the weight and the Meccano Motor, the most powerful toy motor in the world, is strong enough to pull the load.

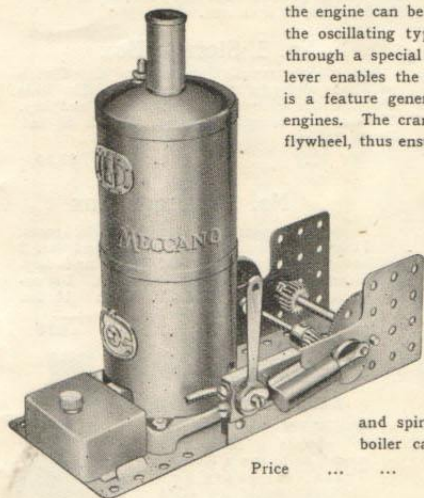

RUN YOUR MODELS WITH A MOTOR

MECCANO

Meccano Steam Engine

THIS is a particularly powerful steam unit designed for driving Meccano models. When suitably geared it is capable of developing remarkable power, sufficient to drive any of the models shown in the Manuals. On actual test it has lifted over 56 lbs. The base and side plates of the engine

are drilled with standard Meccano equidistant holes, so that the engine can be built into any model. A single cylinder of the oscillating type is employed, steam being admitted to it through a special reversing block. Operation of the reversing lever enables the crankshaft to run in either direction. This is a feature generally found only on expensive model steam engines. The crankshaft is fitted with a special compensating flywheel, thus ensuring steady running at all speeds.

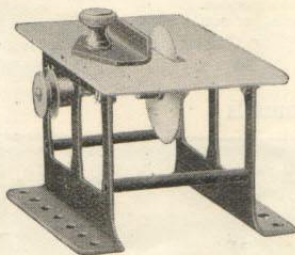

SAFETY. The spirit container for the lamp is placed well outside the boiler-casing, eliminating all risk of the spirit becoming heated. The boiler, which is fitted with an efficient spring safety valve, is of heavy gauge brass with all joints brazed. There is therefore no danger of it exploding.

FINISH. The cylinder, reversing block, crank disc, and pin, are all machined from solid brass and steel. The base, side plates, and spirit container are finished in color and the boiler casing is of oxidised brass finish.

Price \$7.50

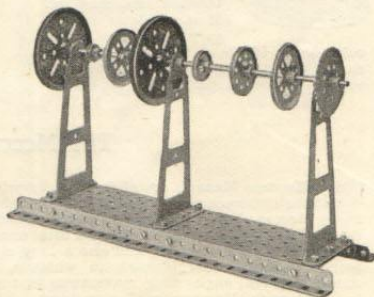

Saw Benches

THIS model Saw Bench is suitable for use with an Electric or Clockwork Motor, or Steam Engine. By means of the equidistant holes in the base it may be built into a Meccano Model Workshop. Beautifully finished in black enamel and nickel.

Price \$1.60

Shafting Standards

THESE Shafting Standards are designed on the Meccano system, with equidistant holes. Our illustration shows how strong and serviceable shafting and pulleys constructed with Meccano parts may be built up on the Large Standard.

Storage Boxes for Meccano Parts

No. 1

No. 2 Storage Box

Finished as No. 1 Box and provided with lock and key. The tray that is fitted in this box enables a much larger quantity of parts to be accommodated. Dimensions: Length 14½ ins. Width 11 ins. Depth 3½ ins.

Price \$5.75

Meccano Enamel

THE Meccano enamel has been introduced to enable model-builders to convert nickel parts to color or to touch up colored parts should such treatment become necessary through mishandling. It is available in red, grey and green, each

color being identical in shade with the enamels used in the Meccano Factory for spraying Meccano parts.

Price, per tin \$0.25

No. 1 Storage Box

Beautifully enamelled in red, and fitted with partitions as shown in the illustration. The lid is hinged and is secured by means of lock and key. Dimensions: Length 15½ ins. Width 8½ ins. Depth 2½ ins.

Price \$3.00

No. 3 Storage Box

A perfect receptacle for Meccano parts. Finished similarly to the No. 1 and No. 2 boxes and provided with lock and key. Fitted with two partitioned trays. Dimensions: Length 20 ins. Width 14 ins. Depth 5½ ins.

Price \$9.50

Meccano Lubricating Oil

BEFORE commencing to operate a Meccano model, or to run a Hornby Train, all gears and bearings should be oiled thoroughly with Meccano Lubricating Oil. This oil is specially prepared and is of the right consistency for the purpose.

Price, per bottle \$0.15

(For Oilcans see page 23)

The Meccano Manuals

THE Meccano Manuals are all beautifully printed and the illustrations are in half-tone throughout. Every Meccano boy should possess a copy of each of the 00-3 and 4-7 Manuals, in which a total number of 846 models is illustrated, and also a copy of the Standard Mechanisms Manual, in which a fine selection of real engineering movements that may be built with Meccano are reproduced. These Manuals may be purchased as separate units, or attractively bound in full cloth cover, lettered in gold, if required.

HORNBY NO 1 ELECTRIC TANK LOCOMOTIVE

6-VOLT PERMANENT MAGNET TYPE

THIS new Electric Locomotive is perfect in design and workmanship. It is of the Permanent Magnet type and is operated from a 6-volt accumulator. The unique feature is that it can be stopped, re-started, reversed and the speed varied by the operation of a lever at the side of the track.

It is supplied with a terminal connecting plate, speed and reverse control switch and 3 ft. of flex, and it is available in the colors of the L.M.S., L.N.E., G.W. and Southern Railway Locomotives Price \$10.00

MECCANO ACCUMULATOR 6-VOLT, 20 AMP.

THE Meccano Accumulator is of substantial construction and is specially recommended for running the Hornby 6-volt Electric Tank Locomotive, described above Price \$11.00

TRANSFORMER

(For 110 Volts, 60 cycles A.C. only)

HORNBY Electric Trains can be operated direct from house current by the use of this transformer. This method is very convenient and eliminates battery cost. The transformer is entirely enclosed and has no moving parts to get out of adjustment. It is absolutely safe for any boy to use.

Price \$3.00

The separate prices of Hornby Rails, Points and Crossings are given on pages 27 and 28.

HORNBY CONTROL SYSTEM

THE Hornby Control System enables you to manipulate Signals and Points in conjunction with the running of your trains by the operation of levers in your Signal Cabin No. 2. The installation of the system is quite a simple matter, no phase of it presenting any difficulty whatever. Large or small railway layouts may be operated with equal ease. Ask your dealer for full details of this splendid system.

Guarantee

Hornby Trains are tested and their efficiency is guaranteed. A form of guarantee is furnished with each locomotive.

HORNBY RAIL FORMATIONS

THERE is practically no limit to the number of interesting combinations to which Hornby Rails, Points and Crossings lend themselves. Every miniature railway enthusiast knows how a carefully planned track adds realism to the game and how greatly it enhances the fun to be obtained. Below we illustrate six rail layouts which will give an idea of the combinations that are possible.
